

**Oklahoma Practitioner Liaison Meeting**  
**Issues and Concerns Raised**  
**January 16, 2015**

Issue 1: A suggestion was made at the January 16, 2015 Oklahoma Practitioner Liaison Meeting relating to Campus Correspondence: Due to budget and personnel reductions this year, all campus correspondence/notices should have the response dates extended to allow taxpayers/representatives more time to respond.

Issue 2: An issue was raised at the January 16, 2015 Oklahoma Practitioner Liaison Meeting: Why don't all of the campuses provide a reply to taxpayers/representatives that they have received their correspondence/documentations in response to information requested from the campuses? All of the campuses are not consistent in sending a reply when they have received the documentation/correspondence from taxpayers/representatives. This would save taxpayers/practitioners a lot of time waiting on the phone with 1040 Help Line/PPS to find out if they have received the information and when to expect a response from the campus.

Issue 3: There's a ton of confusion about this. There seems to be two camps, one says ALL Sch. C, E, F etc. filers must file form 3115. The other camp is no, the TP hasn't made an accounting change just because the IRS has a new reg. if they continue the way they've always done things no 3115 is needed.

Issue 3 Response: FAQs are being prepared to post to irs.gov. Stay tuned.
